

# SAM'S STORY

Hank Greer and his cat, Sam, were soul mates, plain and simple. At a glance, Sam could penetrate Hank's heart, and their communication transcended words. Hank knew he and Sam were brought together on purpose. They were the closest companions.

Sadly their inevitable parting was premature, due to a relatively uncommon type of cancer. Sam was afforded the best medical care available during his treatment, and their special relationship was preserved for as long as possible.

After Sam's passing, Hank and his wife Laurel established Sam's Fund to honor the bond they had with Sam. The Greer's were able to provide the best medical treatment for Sam, and their wish is for every animal to be afforded that same level of treatment, when in need, through Sam's Fund.

## SAM'S FUND

Sam's fund is a charitable foundation established by Veterinary Specialty Care in Charleston, SC that provides financial assistance to enable veterinary care for pets or wildlife in need, for little or no cost.

### THE FUND SUPPORTS:

- Pet Owners in Financial Crisis
- Pets Harmed or Displaced by Natural Disaster
- Injured Wildlife

### REQUIREMENTS:

Pets must have a good prognosis for long-term recovery. Recipient owners must demonstrate that all other payment options have been exhausted.

# GIVE

All too often, even the best pet owners can find themselves financially unprepared to do what is needed to save their pet.

Please consider a donation to help fund treatment for a loved pet or injured wildlife.

Sam's fund is a 501c3 foundation and donations are tax-deductible.
